

ENVIRONMENTAL REPORT

SOLAR PROGRAM

Extra Space has been investing in solar panels on our facilities for over a dozen years. This year we invested \$19.8 million into solar builds and have over a hundred installation projects in planning, development, and building phases. As of December 31, 2022, 55% of our REIT-wholly-owned facilities had solar panel systems. Our solar efforts reduce our grid electricity consumption while targeting a great financial return, showing clearly how sustainability can be at the intersection of what is good for the environment, the community, and our shareholders.
