SUSTAINABILITY REPORT 2022

HIGHLIGHTS & STRATEGY
ENVIRONMENT
SOCIAL
GOVERNANCE
RESILIENCY
ESG TARGETS
At Extra Space, we often tout the financial performance of the company and our track-record of providing the highest 10-year total shareholder return among all publicly traded REITs in the U.S. However, I am even more proud that we can produce these results while also being a good company. We not only want to generate strong returns for our shareholders, but we also want to be a great place to work, to be good environmental stewards, to take care of our customers and communities, and have a well governed organization.

We have won the NAREIT Leader in the Light Award for Sustainability in 2020, 2021, and 2022 and are the only self-storage company to have received this recognition. We’ve been voted by US News, Forbes, Glassdoor, and more as a great place to work. Newsweek named us as a most trustworthy company and a best customer service company based on customer surveys. NAREIT awarded our investor relations efforts with its CARE (communication and reporting excellence) award, naming Extra Space among the top three large cap REITs in stakeholder communication. It’s nice to see the efforts of our team recognized.

As a large holder and manager of real estate, we are taking smart steps to make our assets more efficient each year. These efforts have also yielded strong results. We have continued our trend of reducing greenhouse gas (GHG) emissions in our like-for-like pool each year since we started tracking the metric. We’ve reduced our like-for-like water use, increased our solar power production, and decreased our non-recyclable waste. We are taking smart steps to become more efficient each year. We also continue to evaluate and evolve our practices and policies in important areas such as resilience, cybersecurity, corporate governance, and more.

As we share our fourth sustainability report, we are committed to providing our stakeholders transparent information into our projects, practices, policies, and results. As a company, we remain focused on innovating and building a company that will have lasting performance. Many of the efforts outlined in this report lay the foundation for our long-term success, and position us for continued future growth. Never complacent, we will always find ways to partner with stakeholders to provide strong returns and to be a great company.
**SUSTAINABILITY HIGHLIGHTS**

- NAREIT Leader in the Light Award winner – 2020, 2021 & 2022
- $19.8 million in solar investment in 2022
- 55% of REIT owned stores have solar power
- Four consecutive years of GhG emissions reduction in our like-for-like pool
- 4.2% decrease in water use in our like-for-like pool year-over-year
- Gender Pay Parity: Women at Extra Space earned $1 for every $1 earned by men in similar jobs
- DEI Scholarship Program “There’s Space for Everyone” & Project Destined Internship Program
- Employees Donate over 510,000 meals to Feeding America food banks
- 40% of Board Members identify as racial or gender diverse
SUSTAINABILITY STRATEGY

**STEP 01 LEARN**
- Keep informed about ESG best practices and emerging opportunities
  - Attend education events
  - Keep a pulse on current events impacting ESG
  - Participate in sustainability committees, roundtables and discussions
  - Review improvement suggestions from ESG surveys and through stakeholder engagement

**STEP 02 PLAN**
- Determine which sustainability projects to pursue
  - Set clear and measurable objectives
  - Write policies
  - Build committees
  - Communicate widely

**STEP 03 ACT**
- Implement ESG improving projects
  - Make investments in sustainability projects
  - Collaborate across teams
  - Invest in portfolio (tangible asset improvements) and people (training, development)
  - Collect real-time data and adapt projects based on insights

**STEP 04 REVIEW**
- Analyze results to inform future plans
  - Quantitative and qualitative measurement for projects
  - Reporting, disclosures and communications
  - Regular sustainability committee meetings

GRESB SCORE

Three Green Star
Public Disclosure Grade
“A”

1. The company has no indirectly managed assets.
2. Real Estate Sector Average data from Urban Land Institute, Greenprint Performance Report, Volume 13, and includes multifamily, office, industrial, retail sectors (hospitality, which was previously included was removed in Volume 12). Extra Space Storage intensity data is for all properties managed during 2022 as provided in the appendix to this report.
3. Extra Space Storage energy consumption reported net of solar energy produced and consumed on site within the portfolio.
As a public REIT and owner and manager of real estate, we are not only stewards of our shareholders’ capital, but also of our environment. As stewards, we seek to reduce our carbon impact – our GHG emissions have decreased in our like-for-like pool each year since we began tracking our GHG emissions. We do this through company policies on solar production, energy consumption, emissions, pollution prevention, renewable energy, resilience, sustainable procurement, recycling, and water consumption.

ENERGY EFFICIENCY

In 2022, we invested $1.6 million into our on-going lighting retrofit program, which now creates over 13 million kWhs in energy savings annually. Additionally, Extra Space installed 44 new energy-efficient HVAC systems, and 48 new sustainable roofing projects. Extra Space Storage maintains conservative indoor temperatures, and regularly updates equipment to more energy efficient models. Plus, there are electric car charging stations at select locations.

Our energy reduction targets and our “learn, plan, act, review” strategic approach are not only applied to our existing portfolio, but also potential acquisitions and redevelopment projects. We elect not to obtain energy ratings on most of our portfolio due to cost, with 1% of the square footage of our portfolio being LEED certified, but we monitor our consumption and hold ourselves to a high standard, auditing our energy efficiency and making appropriate efficiency updates across the portfolio. Our corporate headquarters is located within a LEED-certified building that includes numerous energy efficient features (sensor-based lighting, bicycle lockers, on-campus food and exercise options, electric car charging stations, etc.).

WATER CONSUMPTION

Self-storage properties are low consumers of water and low producers of waste-water relative to other real estate sectors. We seek to reduce this already low usage through efficient plumbing devices and irrigation systems. We are also mindful of the landscaping we install at our various facilities, seeking to xeriscape when permitted by local municipalities, or to install landscaping that does not require significant watering. This reduces our usage, as well as our expenses, benefiting all stakeholders. We do not have a material portion of our portfolio in high baseline water stress areas, and have negligible risk related to clean water availability, since it is not an essential part of our business.
**SOLAR PROGRAM**

Extra Space has been investing in solar panels on our facilities for over a dozen years. This year we invested $19.8 million into solar builds and have over a hundred installation projects in planning, development, and building phases. As of December 31, 2022, 55% of our REIT-wholly-owned facilities had solar panel systems. Our solar efforts reduce our grid electricity consumption while targeting a great financial return, showing clearly how sustainability can be at the intersection of what is good for the environment, the community, and our shareholders.

**COMMUNITY SOLAR**

Extra Space has started participating in community solar programs, launching in New Jersey under the states’ new Community Solar Energy Pilot Program. This program allows Extra Space to host additional solar installations on roofs, and then provides the energy produced to low-income households in the community at a discounted rate, expanding access to renewable energy in the local community. This initial project includes 10 Extra Space facilities in seven counties in New Jersey. These solar projects will generate 6.5-megawatts that will power over 1,400 nearby homes.
ENVIRONMENTAL REPORT

WASTE REDUCTION & RECYCLING
We are committed to using recycled materials in the products we sell in our stores – from cardboard boxes to packing supplies. Additionally, we aim to reduce the use of materials in our business processes, by moving manuals to digital version where possible and using digital leasing for customers – which has reduced an estimated 18 million sheets of paper annually.

We also work to divert materials from landfills to recycling centers, and in 2022, we diverted 20% of waste to recycling centers, our highest percentage since the program’s beginning.

CUSTOMERS & ENVIRONMENTAL IMPACT
In the storage subsector, tenants do not live, work, or spend significant amounts of time at our properties. As a result, our tenants do not have access to water, power, or gas in their units, and the units are not separately metered. Properties are controlled by centralized climate systems and lighting is controlled by lighting sensors. As a result, no specific tenant incentives are offered to improve tenant sustainable impact, since they generally are consuming minimal utilities while on our properties. Rather, we continue to engage with customers to improve overall tenant well-being through enhanced security measures, easier and broader tenant access, faster and simpler leasing processes, and service access through technology to enhance the customer experience.
SOCIAL REPORT

Our greatest asset is our people. We strongly believe in training and retaining talented employees and having management at all levels engage with our employees, our customers, our board, and other stakeholders. At Extra Space Storage, we believe that if we take care of our employees, they will take care of our customers, our facilities, and our communities. We take care of our employees by focusing on employee engagement, learning and development, wellness, diversity, equity, and inclusion, and safety.

EMPLOYEES

EMPLOYEE VALUES

Integrity
We live our values - even when no one is looking. When we make mistakes, we acknowledge them. We never try to deceive.

Excellence
We embrace challenge, we pay attention to details, and we provide the best experiences for our customers. We never stop getting better.

Passion
We have a mission we genuinely believe in. We care about our customers and our fellow employees. We are energized about making Extra Space a great place to work.

Teamwork
None of us is as smart as all of us. No one is indispensable, and no one is better than anyone else. We trust each other, we rely on each other, and we empower each other.

Innovation
We constantly grow and improve. We ask “why”, we look to the future, and we take appropriate risks. We expect to do better tomorrow than we did today.

DIVERSITY, EQUITY, & INCLUSION

At Extra Space Storage, we strive to help people reach a better tomorrow. The vision includes our employees, customers, investors, and communities. We know that realizing this vision is best achieved through a diverse, equitable, and inclusionary culture that respects and celebrates the unique attributes and characteristics of each employee.

Our commitment to diversity, equity, and inclusion is, simply put, the right thing to do. It allows us to attract and retain top talent, improve employee engagement, increase innovation and customer insight, and enhance the quality of our decision making. This ultimately leads to increased shareholder value and a strong reputation as an employer of choice.

Extra Space has had a formalized Diversity and Inclusion commitment and program since 2018. The program is led by a committee of Extra Space team members within the organization who are passionate about DEI in the workplace. Since the program’s founding, the committee has focused its efforts on company self-evaluations, DEI education and training, community social involvement, employee resource groups (ERGs), and more.

“Our continuous efforts in DEI provide a platform that empowers employees to thrive both personally and professionally. I am proud to work for a company that embraces inclusivity and diverse perspectives and encourages conversations that empower our employees at every level within the organization.”

– Erica, District Manager in Minnesota
**DEI PROGRAM HIGHLIGHTS**

- Active ERGs for BIPOC, Veteran, Women, and LGBTQIA+ members and allies.
- Established a robust in-depth internal reporting system on DEI benchmarks and metrics.
- Hired on a full-time team member dedicated to DEI.
- Piloted a six-course DEI education roadmap that covers topics from inclusive language, implicit bias, intersectionality, fostering an inclusive work environment, and more.
- Awarded scholarships to DEI-focused college students, both internal and external candidates, through our “There’s Space for Everyone” scholarship program.
- Participated in Project Destined as a corporate partner, providing real estate training, mentorship, and internship opportunities to students from underserved communities.
- Recognized as one of the 100 Companies Championing Women in Utah by the Utah Governor’s Office of Economic Opportunity and the Utah Women & Leadership Project.
- Extra Space’s CEO Joe Margolis joined with other top CEOs in America in 2021 to sign the CEO Action For Diversity and Inclusion Pledge. This pledge furthers our commitment to advancing diversity and inclusion in the workplace.

Extra Space completes a pay gap analysis on a regular basis. This analysis helps the organization identify and quickly close any pay gaps.

In 2022, Women earned $1 for every $1 earned by men in similar jobs.

LEARNING & CAREER DEVELOPMENT

Employees of Extra Space have access to robust training and development programs. New hire onboarding focuses on preparing new employees for the job ahead of them, and the training programs provide real-time feedback on success and improvements. One of our highlights in 2022 was the addition of supplemental training in areas where new hires were struggling or wanted more information. We were able to pivot quickly and provide real-time training to assist our employees in handling customer interactions to provide a world-class experience.

Employees progressing through the company have many training opportunities, including job shadowing programs, Individual Development Plans (IDPs), skill courses, mentorship opportunities, real-time difficult conversations coaching, and more. The pinnacle of these programs is the Leadership Development Program (LDP) and Executive Development Program (EDP). Annually, LDP trains ~20 employees and involves leadership assessments, a senior leadership mentor, training courses, and an in-person Arbinger training. EDP trains ~5 employees and involves an executive mentor, individualized training, and a special project assignment. Both programs build leadership bench depth and create advancement opportunities internally for team members.

Additionally, Extra Space Storage partners with Western Governors University (WGU) for a program where all employees can pursue a degree at nearly no cost to the individual.

The Extra Space team is committed to promoting and elevating employees from within; with over 4,000 team members across 41 states, we have a great team with significant talent. Opportunities for advancement at the company remain strong and help us retain great talent. For example, on our operations team, in 2022, 415 Assistant Store Managers were promoted to Store Manager, 77 Store Managers were promoted to District Team Lead, and 20 District Team Leads were promoted to District Manager positions.
EMPLOYEE SENTIMENT

Extra Space Storage administers an anonymous employee engagement survey through an independent third party that seeks feedback regarding employee satisfaction, employees’ views of management, inclusion, and numerous other categories of employee engagement. In our 2022 employee engagement survey, we received a participation rate of 91.3%, with an employee satisfaction score of 82%. Overall, our satisfaction score was 8% higher than the US Overall Average, showing that Extra Space employees are engaged in their work here.

We regularly revise practices and policies based on feedback received through the annual engagement survey, so our employees know we are listening and take their feedback seriously. This year, survey results directly contributed to 79 action plans created by teams to improve the employee experience.
EMPLOYEE WELLNESS

We believe in cultivating a workplace atmosphere that promotes wellness, healthy practices, and a positive work-life balance. Wellness benefits include:

- Employee Assistance Program (EAP)
- Flexible work schedules
- Competitive health benefits
- Generous paid-time-off benefits
- Paid parental leave policy
- Generous bereavement policy
- Our FIT Challenge rewards employees for meeting exercise goals
- Reimbursement program for exercise-related purchases
- Smoking cessation program
- Health screenings
- Extensive employee discount program
- Reduced medical insurance premium with participation in the Extra Space Wellness Program
- Additional monetary incentives for participating in the Wellness Program rewards
- Building improvements to increase the level of natural light for all employee workspaces
- Care to Share program, where employees can donate excess PTO hours to coworkers in need

SAFETY

Safety is another top priority for our employees and our customers. Our risk management department has created a health and safety manual based on decades of operating experience in the storage industry. All store employees are trained in these best practices that promote health and safety at our properties through identifying potential hazards, incident prevention, reporting, security, cleanliness, and crisis communication.

We want our customers and our employees to find our facilities safe, secure, clean, and comfortable. We regularly survey our customers to ensure we are living up to their expectations through our “Voice of the Customer” program and have processes in place to respond to their feedback.

- Lost-Time Injury Frequency Rate (LTIFR) = 4.0
- 6.4 Injuries per 100 full-time equivalent workers
CUSTOMERS

We build strong connections with our customers. We listen to them and work to exceed their expectations. We care for our customers, we appreciate them, and we work hard to keep them informed. We have a group dedicated to listening to our “Voice of the Customer” feedback – which includes surveys, reviews, individual customer interviews, and focus groups – and representing our customers as a stakeholder in all company decisions. Our customer satisfaction scores show how our efforts pay off.

Our store managers’ incentive program includes a Customer Experience or “CX Score” category, that ties employee bonuses directly to customer service metrics, incentivizing taking care of customers. The metric was built to measure and improve customer experience and covers the ability to respond to customer issues, CSAT scores, and availability to customers. We empower our frontline employees to make the best decisions for our customers.

Our customer experience strategy includes innovating and introducing new products to better the customer’s experience renting at our stores. Our strategy is to meet the customer where they want to be served, with online, call-center and in-person options for renting, and to offer a frictionless omni-channel experience. We are committed to always improving to better serve our customers.

Our overall experience with Extra Space Storage has been nothing less than fabulous. Extra Space will be our go-to storage choice going forward! We will recommend you to our friends and family. Thank you for a wonderful experience!

– Extra Space Customer in 2022

Our overall experience with Extra Space Storage has been nothing less than fabulous. Extra Space will be our go-to storage choice going forward! We will recommend you to our friends and family. Thank you for a wonderful experience!

– Extra Space Customer in 2022
COMMUNITY

Extra Space Storage is proud to be a part of local communities in 41 states, and Washington, D.C. Our ability to create and retain quality local jobs, supply markets with the needed resource of storage, and maintain beautiful facilities makes us a great addition to over one thousand neighborhoods across the U.S. We believe in being a responsible corporate citizen by building strong and positive relationships with our community partners to ensure we address community needs and interests.

We recognize our success is mutually dependent with that of the communities we operate in, which is why we are committed to making a positive impact in the communities we serve through volunteerism, charitable giving, and philanthropy initiatives. We have programs in place to encourage and empower team members to give back to our communities. In addition, corporate employees receive paid volunteer time off (VTO) to encourage employees to volunteer for causes that are the most important to them.

COMMUNITY HIGHLIGHTS FROM 2022

- Team members volunteered over 350+ hours to various charities, including Lifting Hands, Tiny Tim’s Toy Factory, USANA Kids Eat, and more.
- Donated over $45,000 worth of storage space to numerous charity organizations across the country to help support the work of these organizations.
- Donated over 510,000 meals to Feeding America Food Banks during our holiday food drive.
- Partnered with Ticket to Dream to support foster youth in America by donating backpacks, essential supplies, and monetary donations.
- Partnered with Kidz Kubby to support foster youth in Utah during the holiday season by donating gifts for over 300 local children.
- Partnered with Project Destined, a charity that works with corporate partners to give real estate training, mentorship, and internship opportunities to students from underserved communities.
- Partnered with Solar Landscape to join the Community Solar Energy Pilot Program. This program helps to provide access to solar energy to residents in low-income communities at a discounted rate.
We are committed to strong corporate governance to promote the long-term interests of our stockholders, strengthen management accountability, and help maintain public trust in Extra Space Storage. We encourage open communication and positive working relationships among the members of our board. Our directors have access to, and regularly meet with, senior management and other employees. We actively seek input from our stockholders through our stockholder engagement programs, and we have contact with the majority of our stockholders annually. We host quarterly earnings conference calls to which all stockholders have access.

We have adopted several governance changes as a result of feedback received through our stockholder outreach efforts, as well as board refreshment to add more independent directors and enhance diversity. We believe the combination of the actions we have taken presents an overall governance structure responsive to their views.
INVESTOR RELATIONS
Our goal is to be as transparent and informative as possible with our shareholders by providing them with accessible, useful, and timely information about Extra Space Storage. This is accomplished through:

- SEC Filings
- Online presence including online annual reports, investor relations websites, sustainability reports, and more
- IR practices like earnings calls, press releases, investor meetings, and more

These engagements allow investors to share their sustainability priorities and expectations for our company and allow us to communicate our efforts. In 2023, we were named by NAREIT as the bronze winner for their Communication and Reporting Excellence (CARE) Award for Large Cap Equity REITs for our investor relations work, becoming the first self-storage company to be recognized in the award’s 15-year history.

HUMAN RIGHTS
Our commitment to Human Rights is clear in our company values. We engage in dialogue with stakeholders on human rights issues related to our business and the communities we operate in.

See our policy: ir.extraspace.com/sustainability
Our company has a dedicated team of technology professionals who consistently monitor risks related to cybersecurity. The team is responsible for leading enterprise-wide cyber resilience strategy, policy, standards, architecture, and processes. To identify and address potential information security risks, we use a defense-in-depth methodology that employs multiple, redundant defensive measures and outlines actions to take in the event of a security control failure or vulnerability exploitation. To protect our company from cybersecurity threats, we utilize a combination of internal resources and external partnerships. Our partnerships provide services such as penetration testing, incident response, and third-party assessments. In addition, we use a combination of both proprietary and commercial solutions to proactively manage and mitigate threats to our IT environment.

Our cybersecurity infrastructure undergoes external audits as part of our Sarbanes-Oxley audit process and adheres to information security standards. We are also regularly externally audited and certified by PCI DSS, a highly respected information security standard, to ensure that we properly handle and protect credit card data. These efforts demonstrate our commitment to maintaining the highest level of cybersecurity protection.

Our company prioritizes data protection and ensures all employees understand their role in maintaining the company’s cyber security. To further this goal, we have implemented a comprehensive information security training program for our staff. This program includes mandatory computer-based training, regular internal communications, and ongoing end-user testing to assess the effectiveness of our security measures.
RESILIENCY HIGHLIGHTS

Self-storage is resource efficient by nature
- Extra Space operates with low carbon emissions at 0.001 MTCO2e/SF intensity per square foot.

Extra Space is investing in technology
- Lighting retrofits, solar installations, and HVAC improvements have already been put in place and continue to be made each year. Additional projects to improve technology are mapped, including loss prevention and property monitoring projects.

Storage is a need based, resilient product
- As an essential service, the anticipated customer usage is steady and steadily increasing.

Extra Space has a large, diversified portfolio of locations
- With over 2,300 sites in 41 states, we do not have more than 12% of same-store revenue coming from any single MSA and no single store is worth more than 1% of our portfolio.
Our organization’s resilience strategy includes direct oversight of climate-related issues by the Nominating and Governance Committee of our Board of Directors. Our sustainability committee and our senior management teams meet with the Board to discuss and assess climate-related risk and opportunities quarterly.

Some key examples of physical risk we’ve identified are properties that are exposed to climate hazards of earthquakes, extratropical storms, flash flood, hail, river flood, sea-level rise, storm surge, tropical cyclones, wildfires and other perils. We have addressed these risks by constructing a highly diversified portfolio, minimizing exposure to different risks, and obtaining third party property and casualty insurance coverage to further mitigate our financial risk. We have regular portfolio reviews. Average annual losses are estimated by individual locations, as well as by individual risk factors, and we evaluate our findings to determine if changes in portfolio construct or insurance coverage are needed.

Some key examples of transition risk to our portfolio, include increased environmental regulation, which may increase the cost to develop, acquire, own, or manage real estate in certain areas. Increased regulatory changes may increase administrative costs for reporting and compliance, or costs to make building retrofits necessary to achieve certain emission targets. Based on our low emission rates relative to most real estate, we believe our risks remain much lower than most asset classes. To address these risks, we continue to monitor utility consumption and emissions, and implement changes to reduce emissions, primarily through lighting retrofits, our solar program, and the installation of higher efficiency building materials and HVAC systems.
RESILIENCY

RISK MANAGEMENT

We are consistently evaluating and re-evaluating our processes for managing climate-related risks. We have incorporated resiliency measures into our acquisitions and development projects. We proactively evaluate and mitigate risks associated with hurricanes, wildfires, and rising sea levels within our key markets, including those in California, Florida, Hawaii, and Texas, and put in measures when necessary, such as flood protection barriers, fire barriers, and more. As of December 31, 2022, only 6% of our properties were within the 100-year flood plain. These properties have flood insurance coverage, and in many cases have property modifications to make them more resilient to potential flooding. Our resilience strategy is anchored in preventive maintenance, continuous enhancements, and thoughtful risk management, including crisis response plans that are documented, taught to employees, and regularly tabletop drilled.

METRICS & TARGETS

Extra Space Storage has set targets to reduce our GHG emissions, energy, water and waste. Our Risk Management team has goals to maintain and update emergency plans for our properties, which are evaluated annually.
RESILIENCY

ACQUISITIONS
We aim to minimize physical and financial climate change related risk in our acquisitions by evaluating these risks in our underwriting and due diligence processes. We work to ensure our portfolio is diversified, without excess exposure in specific markets or to specific risk factors which would cause higher average expected losses in the portfolio.

DISPOSITIONS
We also evaluate our existing portfolio annually for disposition candidates. Our evaluations focus on operational efficiency, future growth prospects and future expected losses related to physical asset risks and financial risks from natural disasters, policy changes, and climate change.

OPERATIONS
Our teams are equipped with emergency response plans and kits and are trained to respond safely in scenarios of extreme weather events. Individual property audits are conducted, resulting in property enhancements to mitigate climate related risks.

---

1. Consumption reported for all properties managed by Extra Space Storage in the reported period. Portfolio coverage was lower in 2022, due to significant churn of square footage in Q4 2022 as well as due to removal of stores with reporting gaps in utility consumption and solar production due to reliance on obsolete 3-G technology.
2. Energy use has historically been reported net of solar energy produced within the portfolio and in megawatt-hours in previous company disclosures. In this report, the company presents gross energy consumption at locations (prior to solar energy offset), and presents the data in Gigajoules to comply with the SASB framework. The Company also presents consumption in megawatt-hours since it is the preferred reporting metric by certain stakeholders.
3. Water use has historically been reported in kilogallons in previous company disclosures. In this report, the company also presents water withdrawal in Thousand Cubic Meters to comply with the SASB framework.
