**Forward-Looking Statements:**

Certain information set forth in this release contains “forward-looking statements” within the meaning of the federal securities laws. Forward-looking statements include statements concerning the benefits of store acquisitions, developments, favorable market conditions, our outlook and estimates for the year, statements concerning the impact of the Life Storage Merger, including the anticipated expense run rate, and other statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, financing needs, the competitive landscape, plans or intentions relating to acquisitions and developments, estimated hurricane-related insurance claims and other information that is not historical information. In some cases, forward-looking statements can be identified by terminology such as “believes,” “estimates,” “expects,” “may,” “will,” “should,” “anticipates,” or “intends,” or the negative of such terms or other comparable terminology, or by discussions of strategy. We may also make additional forward-looking statements from time to time. All such subsequent forward-looking statements, whether written or oral, by us or on our behalf, are also expressly qualified by these cautionary statements. There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in or contemplated by this release. Any forward-looking statements should be considered in light of the risks referenced in the “Risk Factors” section included in our most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q. Such factors include, but are not limited to:

- adverse changes in general economic conditions, the real estate industry and the markets in which we operate;
- failure to realize the expected benefits of the Life Storage Merger;
- the risk that Life Storage’s business will not be fully integrated successfully or that such integration may be more difficult, time-consuming or costly than expected, including our ability to retain and hire key personnel;
- the uncertainty of expected future financial performance and results of the combined company following completion of the Life Storage Merger;
- failure to close pending acquisitions and developments on expected terms, or at all;
- the effect of competition from new and existing stores or other storage alternatives, including increased or unanticipated competition for our or Life Storage's properties, which could cause rents and occupancy rates to decline;
- potential liability for uninsured losses and environmental contamination;
- the impact of the regulatory environment as well as national, state and local laws and regulations, including, without limitation, those governing real estate investment trusts (“REITs”), tenant reinsurance and other aspects of our business, which could adversely affect our results;
- our ability to recover losses under our insurance policies;
- disruptions in credit and financial markets and resulting difficulties in raising capital or obtaining credit at reasonable rates or at all, which could impede our ability to grow;

our reliance on information technologies, which are vulnerable to, among other things, attack from computer viruses and malware, hacking, cyberattacks and other unauthorized access or misuse, any of which could adversely affect our business and results;

increases in interest rates;

reductions in asset valuations and related impairment charges;

our lack of sole decision-making authority with respect to our joint venture investments;

the effect of recent or future changes to U.S. tax laws;

the failure to maintain our REIT status for U.S. federal income tax purposes;

impacts from any outbreak of highly infectious or contagious diseases, including reduced demand for self-storage space and ancillary products, and potential decreases in occupancy and rental rates and staffing levels, which could adversely affect our results; and

economic uncertainty due to the impact of natural disasters, war or terrorism, which could adversely affect our business plan.

All forward-looking statements are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith and we believe there is a reasonable basis for them, but there can be no assurance that management’s expectations, beliefs and projections will result or be achieved. All forward-looking statements apply only as of the date made. We undertake no obligation to publicly update or revise forward-looking statements which may be made to reflect events or circumstances after the date made or to reflect the occurrence of unanticipated events.

# WHY STORAGE?

# WHY STORAGE?

## RESILIENT & GROWING DEMAND

Need-based, recession resilient asset class with increasing awareness, utilization, length of customer stay, and demand drivers in positive and negative economic environments.

## STEADY CASH FLOWS

High operating margins, the ability to increase rents monthly and low cap-ex requirements, resulting in high FAD and consistent dividend growth.

## DIVERSIFIED CUSTOMER & ASSET BASE

No material customer concentrations and granular asset values create efficient asset level and geographic diversification.

## CONSOLIDATION OPPORTUNITY

Highly-fragmented industry, with the majority of properties managed by less sophisticated small operators. Significant opportunity for consolidation due to large operators' scale, technology and cost of capital advantages.

## TOP SHAREHOLDER RETURNS

Storage has the highest cumulative total return of any real estate sector since 1999[1].

## TENURED MANAGEMENT TEAM

Executive team has average tenure of 20 years with Extra Space Storage and a strong track record of execution.

## FLEXIBLE STRUCTURE & PARTNERSHIPS

Creating growth opportunities through joint venture, lending and third-party management relationships. Our partnerships provide capital, additional income streams, enhanced returns and future acquisition opportunities.

## DIVERSIFIED & GROWING PORTFOLIO

Consistent growth of our geographically diverse portfolio through accretive acquisitions, mutually beneficial joint-venture partnerships, and third-party management services in a highly fragmented sector.

## OPERATIONAL EXCELLENCE

Enhance value of existing and newly acquired self-storage facilities, through best-in-class customer acquisition, revenue management and customer service platforms. Consistent outperformance of peers in same-store revenue, net operating income and funds from operations (FFO) growth.

# NEW SUPPLY IN MARKETS

## New Deliveries Expected to Decrease in 2024

- ~18% of EXR Same-Store Pool had a Competing Delivery in 2022 & 2023 – Down from ~28% in 2019
- Deliveries are Expected to Decrease in 2024 & 2025
- Continued Impact in Markets with Higher Deliveries
- Markets With Elevated Supply Still Maintaining High Occupancy With Lower Rates to New Customers

## Physical Lease-up Ahead of Historical Levels

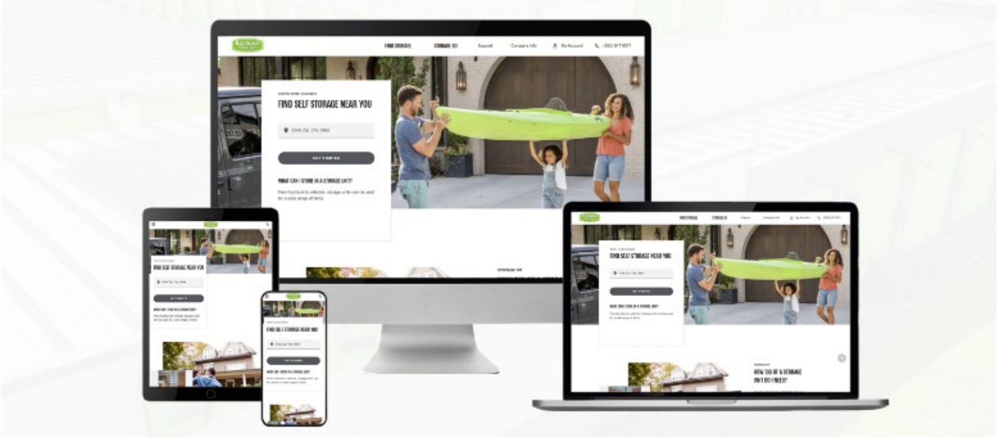
And Economic Stabilization In-line With Historical Levels

## Headwinds to New Development Continue

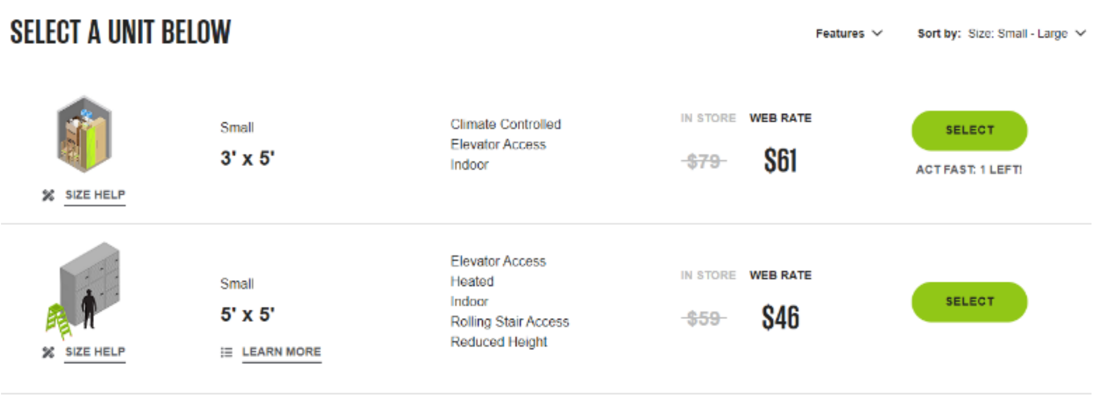
Elevated material and labor costs, increasing interest rates, reduced availability of debt and equity capital and longer entitlement periods all contributing to new development moderation and delayed deliveries

# TECHNOLOGY ADVANTAGE OF LARGE OPERATORS

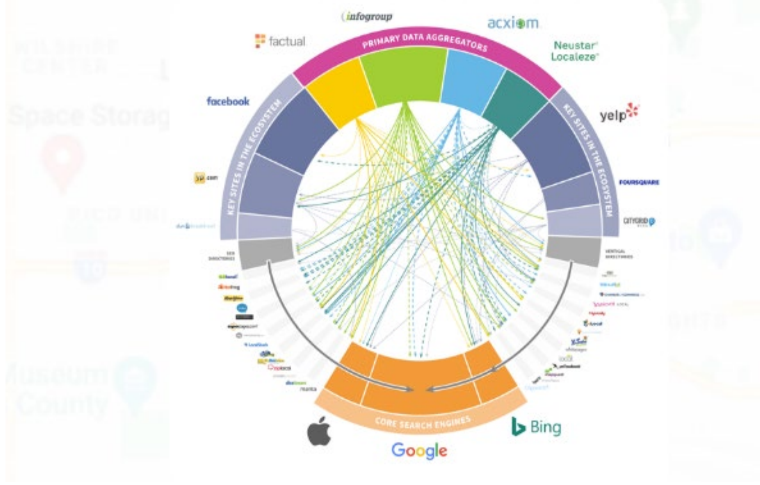
## CUSTOMER ACQUISITION



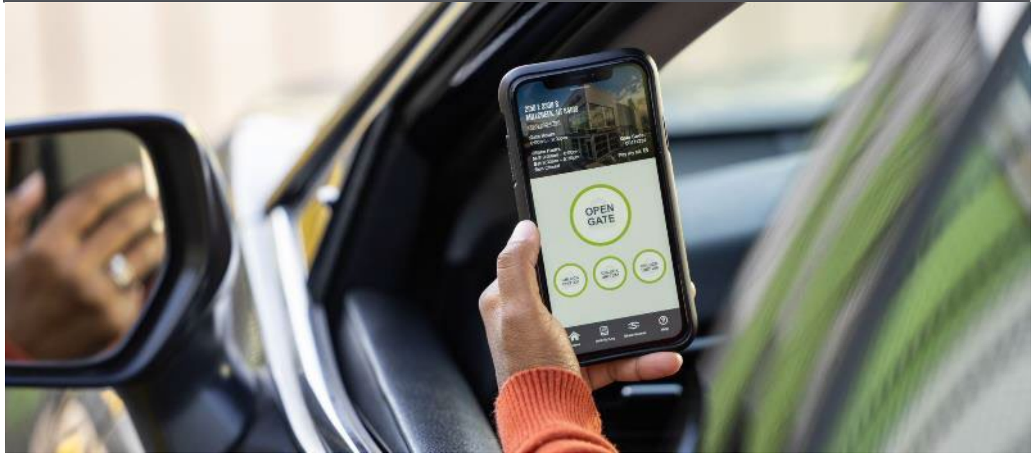
## REVENUE MANAGEMENT



## DATA ANALYTICS

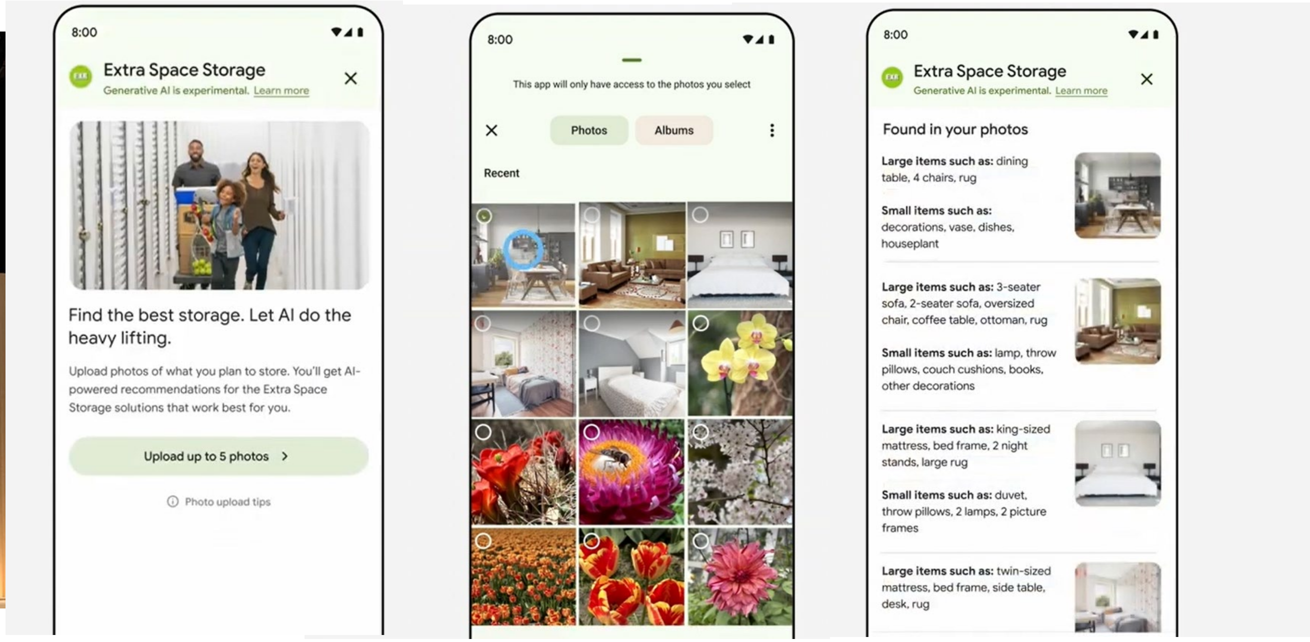


## CUSTOMER EXPERIENCE



# TECHNOLOGY ADVANTAGE OF EXTRA SPACE

## Example: Google AI



Presented at the May 2024 Google Marketing Live

"We're also currently testing a new ad experience in Search to help guide people through complex purchase decisions. Let's say friends are renovating and they search for "short term storage." Clicking an ad for a storage facility may lead to a dynamic experience where AI helps them figure out what they need. If they share details, like photos of furniture and their budget, Google AI could then recommend storage unit sizing and packing materials with a link to purchase on the website."

# September 2024: APPENDIX

# NON-GAAP FINANCIAL MEASURES

**<u>Definition of FFO:</u>**
FFO provides relevant and meaningful information about the Company's operating performance that is necessary, along with net income and cash flows, for an understanding of the Company's operating results. The Company believes FFO is a meaningful disclosure as a supplement to net income. Net income assumes that the values of real estate assets diminish predictably over time as reflected through depreciation and amortization expenses. The values of real estate assets fluctuate due to market conditions and the Company believes FFO more accurately reflects the value of the Company's real estate assets. FFO is defined by the National Association of Real Estate Investment Trusts, Inc. ("NAREIT") as net income computed in accordance with U.S. generally accepted accounting principles ("GAAP"), excluding gains or losses on sales of operating stores and impairment write downs of depreciable real estate assets, plus depreciation and amortization related to real estate and after adjustments to record unconsolidated partnerships and joint ventures on the same basis. The Company believes that to further understand the Company's performance, FFO should be considered along with the reported net income and cash flows in accordance with GAAP, as presented in the Company's consolidated financial statements. FFO should not be considered a replacement of net income computed in accordance with GAAP.

For informational purposes, the Company also presents Core FFO, which in previous quarters was referred to as FFO as adjusted. There have been no definitional changes between FFO as adjusted and Core FFO. Core FFO excludes revenues and expenses not core to our operations and non-cash interest. Although the Company's calculation of Core FFO differs from NAREIT's definition of FFO and may not be comparable to that of other REITs and real estate companies, the Company believes it provides a meaningful supplemental measure of operating performance.

The Company believes that by excluding revenues and expenses not core to our operations, the costs related to acquiring stores and non-cash interest charges, stockholders and potential investors are presented with an indicator of its operating performance that more closely achieves the objectives of the real estate industry in presenting FFO.

Core FFO by the Company should not be considered a replacement of the NAREIT definition of FFO. The computation of FFO may not be comparable to FFO reported by other REITs or real estate companies that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently. FFO does not represent cash generated from operating activities determined in accordance with GAAP, and should not be considered as an alternative to net income as an indication of the Company's performance, as an alternative to net cash flow from operating activities as a measure of liquidity, or as an indicator of the Company's ability to make cash distributions.
